

Should've said No?

Why he tests me, why his love is always due?

Why he ignores me?

Why am I always the last in his queue?

Why he gives time to everyone and not me?

Why his promises are never true?

Why he keeps giving me chocolates?

Why can't he hear me saying "All I want is you"?

Why can't he straight up cheat on me?

Why his exterior is a hue?

Why he makes it so hard for me to leave?

Why won't he let me find someone new?

I think all he wants is to own me,

There is nothing I can possibly do.

Except to run away from him,

I'll set him free and myself too.

I'll regret why I wasted all these years,

I should've said no to you?
