

Lost Friend

Was lonely for two years
Then you came by,
I still remember the time
When you first said "Hi!".

Being apart from friendship for long
I thought it is time,
That I keep a friend
With whom my thoughts could rhyme.

You were talkative
And so was I,
Soon we became best friends
Without any special try.

Two years of fun with you,
Healed previous years' pain,
When people were mean to me
Taunts went through heart, veins and brain.

I still remember you carried my school bag
And the way I fought for you,
Can't forget your weird laughter
And that day you cried, I did too.

Me and you had to split-up as
School days came to an end,
We said "We will stay in contact forever"
Bye, Bye dear friend.

But were these words the truth?
No? they were not,
I was in confusion
We cared for each other a lot.

Crashed onto a hard ground I felt
When you made no effort to see me,
No calls? No messages?
I decided to set you free.

I feel no hatred nor any love for you
I hope you stay happy and healthy always,
I wish one day you realize what you did
And miss those lovely school days.
